

# Døwel

by  
**MR.FRÄG**

## DESCRIPTION

'Døwel' is a family of stools that celebrate a rich and yet unlikely combination of materials with its polished solid brass seat and understated turned timber legs.

Inspiration came loosely from the use of brass in architecture and particularly the way it is used as a material we interact with as a touch point. The name however conveys the stools sense of simplicity, honesty and that every element is essential to the design.

## MANTANENCE AND CARE

Periodically wipe the stool with a damp soft cloth. For spills immediately wipe off any foreign substances that could stain with a soft cloth and mild soapy water, rinse off several times. Never use abrasive cloth or abrasive solvents.

## WARRENTY

The 'Døwel' Stool comes with a three year warranty based on observance of general product maintenance and care. Warranty excludes normal wear and tear or improper use of the item.

## ASSEMBLY

Døwel stool comes fully assembled
